

## NO VOTES AGAINST GREEN MEASURE

WORKMAN COMPENSATION ACT RECEIVES UNANIMOUS SUPPORT OF SENATORS.

Special Columbus Correspondent.

Columbus, O., Feb. 19.—The Green compulsory workmen's compensation bill passed the senate without a dissenting vote, and after a filibuster lasting nearly two hours. Every effort to nullify any of its provisions or amend was defeated, except a few amendments offered by the author. One of the amendments that was adopted raises the maximum amount that may be awarded to dependents of a killed workman from \$3,400 to \$3,750. The other important change holds the real stilt and is directed at attorneys who do a personal injury business. It provides, in the event an injured employee brings suit for damages, refusing to accept compensation if the act of injury has been caused by a violation of some state law or regulation, the attorney prosecuting the case must accept a fee to be allowed by the trial judge. Any contract the attorney may have with his client on a contingent basis is declared not in force if a judgment is recovered.

Senator Theodore Jung of Cincinnati led the opposition to the bill, conducting the filibuster. Upon the issue being forced, shortly before 6 o'clock in the evening, by President Hugh L. Nichols of the senate, Jung voted for the passage of the bill.

Senator Jung talked for over an hour and a half on a long list of amendments he submitted, which, in effect, proposed to write in the Michigan optional plan which liability insurance companies claim as ideal from their point of view.

To Protect Bank Depositors.

Senator Frank Hillenkamp will introduce a bill soon providing for a guarantee fund to protect bank depositors, and making the further provision that the duty of bank inspection be left with the banks themselves. The latter provision is based on the principle that since the banks will be themselves directly liable for losses, they can be trusted to inspect one another. Many bankers complain now that the state inspection is not sufficiently exhaustive. In view of the unfortunate situation in the state banking department, caused by the indictment for embezzlement returned against Clement Baxter of Lima, a bank examiner, and the consequent voluntary retirement of Superintendent of Banks F. E. Baxter, brother of the examiner, it is thought that the Hillenkamp measure will be given close consideration. It is the same measure that has been advocated for years by William Jennings Bryan. The measure provides that the banks of the state shall contribute to a state fund that shall be used to protect depositors in case of the failure of any bank. The contributions of the banks shall be based on their capital stock.

If the Hillenkamp bill were passed the state banking department would become practically superfluous, in the opinion of the author.

Measure Is Recommended.

The house judiciary committee has recommended for passage a bill proposing to sentence to the penitentiary for a period of from one to five years any persons convicted of conspiring to raise the prices of flour, meat, eggs or vegetables.

The same committee has rejected the Carroll bill, which requires a license for persons who want to carry concealed weapons and has substituted the Williams bill, which only punishes persons who carry weapons without a good reason.

Attorney General Hogan has given an opinion declaring that county election boards have a right to withhold the election certificates of persons in whose election there is suspicion of fraud.

Senator Hillenkamp of Lucas county proposes to allow saloon keepers who refuse to permit treating in their places an advantage in the form of a reduced saloon license.

Would Bar Sunday Baseball.

Senator Beman of Gallia county introduced a bill which seeks to reenact the former rigorous anti-Sunday baseball law. The law passed two years ago prevents baseball on Sunday morning, but leaves afternoon playing to the regulation of local authorities.

A bill introduced by Senator Potting of Summit county seeks to prevent the crowding of street cars beyond 50 per cent of their seating capacity plus 50 per cent.

Submission to the people of a constitutional amendment allowing one juror to take the place of any juror incapacitated during a trial is proposed by Senator Smunt. The extra juror would hear all the evidence with the other jurors.

"Logging Engineering."

A chair of "logging engineering" has queer sound, but out in Washington the lumbermen insist that they need it in the state university in their business. There are possibly in some eastern colleges professors more impressively titled than are not of as much practical value.

His Case Exceptional.

"Who's the thin little man with the melancholy expression?" "That's Hummer, the poet, who wrote the beautiful verses with the refrain, 'Life is what you make it—you can make it what you want.' He suffers from chronic dyspepsia."—Cleveland Plain Dealer.

## THREATENED STRIKE OF FIREMEN AVERTED

RAILROADS YIELD AND AGREE TO ARBITRATE DIFFERENCES UNDER ERDMAN ACT.

New York, Feb. 19.—There will be no firemen's strike on the 54 eastern railroads. The railroads yielded and agreed to arbitrate under the Erdman act the controversy with the 330,000 members of the Brotherhood of Locomotive Firemen and Enginemen.

The firemen had stood, to a man, for this method of arbitration ever since the deadlock began. The railroads had stood firm for arbitration before a commission of six or seven men.

Three men, acting under the law, will decide the firemen's claims. Their decision will be binding.

The firemen selected their representative on the board of arbitrators as soon as the railroad's decision was announced. He is Albert Phillips of Sacramento, Cal., vice president of their organization. The railroads selected as their man, W. W. Atterbury, vice president and general manager of the Pennsylvania lines east.

Within a day or two these two men will select the third or neutral member. Within 30 days thereafter the arbitrators must render their findings. Where they will meet was not announced.

Judge Martin A. Knapp of the United States commerce court, and G. W. W. Hanger, acting federal commissioner of labor, acting as mediators under the Erdman act, at the firemen's request, conducted the negotiations which resulted in agreement to arbitrate.

Throughout the mediation proceedings the railroad managers bitterly opposed arbitration under the Erdman act on the ground it was unfair to place so much responsibility on the shoulders of the odd man on the board. They vehemently iterated this protest in giving ground, and declared that their only reason for yielding was that the public would not tolerate a strike.

## GIRL IS ATTACKED BY NEGRO

Fourteen-year-old Miss Found Unconscious After Being Held Prisoner All Night.

Newark, O., Feb. 19.—Found unconscious in a clump of bushes a mile from any house, Miss Pearl Ford, 14, daughter of William Ford, rallied sufficiently in the hospital, later, to tell of the brutal attack upon her by a negro, who kept her prisoner the greater part of the night.

The girl said she was returning home from a picture theater at night when a negro seized her and clamped his hand over her mouth. She says he carried her a distance, but she soon lost consciousness. She believes she was drugged, and Dr. W. H. Knouse said he found traces of chloroform. The child, who became hysterical, was unable to give a description of her assailant.

Powder Trust Dissolves.

Philadelphia, Feb. 19.—Judges Gray, Buffington and McPherson in the United States district court approved the report of the dissolution of the powder trust as submitted by attorneys.

Eddy Church Gets \$2,000,000. Boston, Feb. 19.—Gov. Foss has signed an enabling act permitting the First Church of Christ, Scientist, of Boston to accept the bequest of \$2,000,000 provided in the will of Mrs. Mary Baker G. Eddy.

Murder With Silent Firearm.

New York, Feb. 19.—One man was killed and another wounded in Harlem by assassins who, the police say, used a rifle with a Maxim silencer attached.

Here is a message of hope and good cheer from Mrs. C. J. Martin, Boone Mill, Va., who is the mother of eighteen children. Mrs. Martin was cured of stomach trouble and constipation by Chamberlain's Tablets after five years of suffering, and now recommends these tablets to the public. Sold by all dealers.—Adv.

Never can tell when you'll mash a finger or suffer a cut, bruise, burn or scald. Be prepared. Thousands rely on Dr. Thomas' Electric Oil. Your druggist sells it. 25c and 50c.

## SPOT LITTLE KNOWN

Birthplace of Washington Seems Strangely Forgotten by the Average American.

NOT FAR FROM MOUNT VERNON

Wakefield Plantation, Though Isolated, Is Well Worth a Visit—Monument Erected by National Government on Ground Where House Stood.

It will doubtless come as something of a surprise to most readers, and possibly as something of a shock, to learn that one of the most historic localities connected with the career of the foremost American should be today almost wholly neglected by his countrymen. This notable object of neglect in this age of patriotic shrines is none other than the birthplace of George Washington at Wakefield plantation, on the Virginia shore of the Lower Potomac river. It is not that this significant spot is unmarked—a grateful nation has seen to it that no place associated with George Washington should be left unmarked.

As has been said, the historic spot at Wakefield has not been left unmarked, although isolated and neglected insofar as the tide of twentieth-century tourist travel is concerned. It was in 1895 that the national government erected at Wakefield a copy of the facsimile in reduced size of the Washington national monument at the national capital. The unadorned shaft, which is somewhat similar (though larger) to the one at Yorktown marking the spot where Lord Cornwallis surrendered to the commander-in-chief of the Continental army, is visible for some distance on the Potomac river, but cannot be seen from the decks of the regular river steamers by reason of the fact that the navigable channel is several miles distant.

The monument bears the inscription: "Washington's Birthplace," and in smaller letters at the base are the words "Erected by the United States, A. D. 1895."

UPHOLDS THE KIMBLE LAW  
Buckeye State Supreme Court Declares in Opinion That Certificates May Be Withheld.

Columbus, Feb. 19.—The supreme court put teeth into the Kimble act to prevent corrupt election practices by holding that the county election board has authority to withhold election certificates when there is evidence indicating there was fraud in the election of candidates. The construction of the law is given by the court in overruling the demurrer of William C. Brown, prosecuting attorney-elect of Jefferson county, under indictment for alleged violation of the Kimble act to the answer of the county election board.

Edwards Freed in Bribery Case.  
Charleston, W. Va., Feb. 19.—Charges against William Seymour Edwards, one of the Republican candidates for United States senator, that he had tried to buy the vote of a member of the legislature, were dismissed by Judge M. Gilchrist, before whom the warrant for Edwards' arrest last week was sworn out.

Northern Ohio Wins.  
Canton, O., Feb. 19.—The Northern Ohio Traction & Light Co. won a victory over the Stark county commissioners, when the court of appeals there reduced a decision which blocks the commissioners' efforts to force lower fare between Canton and Massillon.

Gun Burets, Kills Frenchmen.  
Toulon, France, Feb. 19.—Three French naval gunners were killed and a number of others severely wounded by the explosion of a three-inch gun on board the dreadnaught Danton during target practice in the roadstead of Salins d'Hieres.

Monument Marking Birthplace of George Washington.  
ington is devoid of monument or commemorative tablet—but that it is seemingly wholly unknown to those countless thousands of patriotic pilgrims who delight to do homage to Washington by visits to localities rendered conspicuous through his career.

The neglect of Wakefield, where the Father of His Country first opened his eyes upon the world, is all the more strange when it is pointed out that it is located less than half day's journey by steamer from Mount Vernon—that preeminent mecca for the American tourist and for foreign visitors which is visited each year by thousands upon thousands of sightseers.

The people who visit the Old Dominion primarily to see Mount Vernon never think of returning home without a peep at the quaint town of Alexandria, where Washington attended church and engaged in other public activities, and not a few of them also make journeys to various historic mansions which the first president designed or built, as, for instance, the mansion which he built for his beloved Nelly Custis, but seemingly the touring throng has quite overlooked the fact that the savior of his country had a birthplace.

## THE FARMERS NATIONAL BANK

CANFIELD, OHIO

JOHN DELFS, President.  
H. J. BEARDSLEY, Vice Pres.

MARK H. LIDDLE, Cashier.  
D. C. DICKSON, Asst. Cashier.

The odd thing about the present-day neglect of Wakefield plantation is that the old farm was visited by vasty greater numbers of people a few years ago than it has been more recently. The secret of the whole thing is that Washington's birthplace is very isolated. Indeed, it would be difficult to find a more out-of-the-way nook in the eastern part of the United States. No railroad approaches within many miles of it, and the only means of access is found in the steamers plying up and down the Potomac river. In days gone by these river craft carried many interested persons to Wakefield. The United States government built a pier at the plantation, and steamers were enabled to land passengers almost at the site of the manor house in which Washington was born.

As has been said, the historic spot at Wakefield has not been left unmarked, although isolated and neglected insofar as the tide of twentieth-century tourist travel is concerned. It was in 1895 that the national government erected at Wakefield a copy of the facsimile in reduced size of the Washington national monument at the national capital.
